

Looking for an apprenticeship in the metals industry?

Show you've got what it takes to succeed.

You'll be trained at TAFE before being placed with an Engineering Company by AiGTS, HunterNet, MIGAS, MEGT or MG My Gateway for practical hands on training in a workplace. This experience will give you a strong chance of picking up an apprenticeship in the industry.

This course is the equivalent of the First Term of the trade course so if successful you'll get credit towards your apprenticeship. Funded by the NSW Government.

- Free course at TAFE
- Personal Protective Equipment supplied
- Be quick to register as places are limited!!

Go to www.nswgrouptraining.com.au/career-seekers/pre-apprenticeship-courses to register.

Or

Email: info@nswgrouptraining.com.au with a short resume. Include your contact details (e.i. date of birth, address) and which TAFE College you'd like to attend.
